

The independent self-certification
scheme for window and door installers.

Assure
Certification

7634

The **only independently owned scheme** in the glazing sector.

Installers of windows and doors can now join 'Assure': an official competent person scheme to self-certify window and door installations; instead of getting building regulation approval for each individual installation.

Assure is not 'system specific' and can be joined by professional fitters of PVCu, timber or aluminium throughout England and Wales.

What is **Assure** ?

Assure Certification Ltd is an official competent person scheme authorised by the Ministry of Housing, Communities and Local Government (MHCLG).

It is UKAS accredited; which means it has formal, third-party recognition for competence at certifying installers who wish to self-certify their installations. The accreditation demonstrates Assure's success at meeting the stringent requirements of international standards.

Assure offers a cost-effective and straightforward route to compliance that works for installers and homeowners.

How do I Become a Member?

To become an Assure certified installer you will have to undergo an inspection to ensure you meet the high standards required by the scheme. All members of the Assure scheme will be inspected at least once every year; and are required to keep the Assure head office updated of any relevant changes within their business.

To join go to **www.assurecertification.com**

How does **Assure** certification benefit me?

There are a large number of benefits to becoming Assure certified. Aside from offering your customers the reassurance that your competitors might be unable to offer, there are also a number of advantages to you and your business:

- **Self-certification for compliance to building regulations**
- **Building regulation compliance certificates sent direct to your customers within 24 hours**
- **Free re-prints of certificates**
- **Knowledge and practical assessment for installers and surveyors (to demonstrate Mandatory Technical Competencies (MTC))**
- **Continuous Professional Development (CPD) bulletins**
- **Technical and arbitration helpline**
- **Registration of installations with the Local Authority**
- **Assure certification can cover all systems and product materials**
- **Personal and friendly support team**
- **Use of Assure logo for marketing, including supply of van stickers.**
- **Access to Insurance Backed Guarantees (IBG)**
- **Mobile and Tablet friendly registration dashboard**
- **Access to Assure Energy Rating Register**

All installers and surveyors registered with Assure will be provided with branded ID cards to demonstrate to customers they have the appropriate Mandatory Technical Competencies (MTC).
